BONSPIEL, FEB. 4th

Twenty-Seven Skips Elected Monday—119 Brae Ladies to Play This Year.

The sharp frost of a few days ago has allowed the making of ice at the rink, and it is expected, if it remains cold, that there will be three sheets ready by the end of the week. At a meeting of the executive on Monday evening the secretary showed there were 119 members on the list and only a few of whom are not active players.

The following skips were appointed for the year: Messrs. T. A. Gaetz, Carswell, Pidgeon, Clarke, A. B. Gibson, Wallace, Rev. Brown, R. Campbell, J. J. Stephenson, Galbraith, Campbell, Plaxton, Carscallen, Hanna, Mann, Lindsay, W. A. Moore, Parker, Hacking, Munro, Lacey, Marshall, Gould, G. W. McKenzie, W. J. Gibson, Gillespie, and C. Stone—27 in all.

A meeting of the skips will be held at the rink on Thursday evening at 8:30 o'clock for the purpose of picking out the rinks. All skips are asked to be present.

It was decided to hold the Red Deer bonspiel on Tuesday, February 4, and following days.

J. M. Campbell was added to the executive committee in place of A. T. Stephenson who will not be able to devote time to the work.

Vis President H. Waller and A. B. Gibson were appointed a printing committee, and the President, Vis President, Secretary and H. Clarke were appointed a committee to canvass the town for subscriptions towards the bonspiel.

Everything points to the games being in full swing next week.

Annual Meeting Of The Alberta Natural History Society.

The above Society held its 7th annual meeting in the city hall, Red Deer. President Dr. George was in the chair, and delegates were present from Innisfail and Eskbank branches, as well as Red Deer. Letters of regret were received from Edmonton, Banff and other places. The President gave a brief address, after which the Sec-Treas. read his report, which was adopted. The report, also from the Innisfail and Innisfail branches were read. The Society is in a sound financial position due to the energy of its officers and increased membership.

At the election of officers Mr. Fiske, of Hillsdown, was elected President, and Rev. Mr. Short, of Innisfail, Sec-Treas. Dr. George, President of the Red Deer branch, gave a lecture on the ovals of Alberta, illustrating it with mounted specimens. The lecture was greatly appreciated by those present.

A banquet and social was held in the basement of the Baptist Church in the evening, which did great credit to those in charge.

HOMESTEADER KILLED.
A homesteader named Samuel Maki was killed when taken from a wagon in which he was riding when the horse ran away. He was returning to his home at Rocky Mountain House, and when near Sylvan Lake the accident occurred. Last Wednesday afternoon, Constable Collin brought in the news, but on conversation with Constable H. I. George did not think an inquest necessary.

MISS HERBERT'S DEATH.
The death of Winifred, beloved daughter of Capt. and Mrs. Herbert of Pine Lake, on November 22nd, was very sad. She had undergone an operation at the hospital for appendicitis, and was recovering, when she seemed to take a fever and gradually passed away. She was sixteen years of age, and the sorrowing parents have the sympathy of a large circle of friends.

BIRTHS.
In Red Deer, Nov. 22nd, 1912, to Mr. and Mrs. J. M. Campbell, a daughter.

At Red Deer, on November 22nd, 1912, to Mr. and Mrs. Susan Melstrom, a daughter.

At Poplar Ridge, November 25th, 1912, to Mr. and Mrs. P. Neilson, a son.

Keep Wednesday, the 11th inst., at 8 p.m., open for the lecture at the Town Hall on trees, shrubs and hardy flowering plants. Mr. Isaac Milson, F.R.S.A.S., will be the speaker. He is a mine of information and will be pleased to answer questions. If you intend having a garden this year, attend this lecture. It may save you dollars.

Mr. and Mrs. Fred Couls wish to heartily thank, through the News, all those who kindly assisted Mr. Couls the time he was hurt.

The Rev. Dr. King, formerly principal of Indre College, India, now of Robertson College, Edmonton, will conduct the regular services in the Presbyterian Church, Red Deer, on Sunday, Dec. 8th.

Women's Institute Of Alberta

The first meeting of the Red Deer branch of the Women's Institute of Alberta was held at the home of the President, Mrs. Judge Lees, on Saturday, November 30. This being the first meeting, there was no formal programme, but the matter of constitution, and the general work of the Institute, were discussed. Mrs. Muldrew, lady principal of the Ladies' College, gave a very interesting talk on the work that had been attempted and very successfully carried out by the Institutes throughout Ontario and Quebec. Some very valuable suggestions as to the work that might be taken up by the Red Deer branch were also given by Mrs. Muldrew. The January meeting will be held at the home of Mrs. G. W. Green, and at this meeting a more definite programme for the succeeding months will be decided upon. "For Home and Country" is the excellent motto adopted by these Institutes.

Last week we stated the fine large ice house being built near the railway bridge would hold two or three hundred tons of ice. We should have said two or three thousand tons, as the builder has sold already more than four hundred tons to one person.

Business Locals

WHY NOT BOOKS FOR XMAS?
Don't forget our annual opening, Saturday, 7th; 20 per cent. discount.—H. H. Humber.

Ho-Pee stories, linen and rag toy books, Mother Goose, children's Bible stories, Chatter Box and painting books at John McVicar's book store.

What better present can you give than a well framed picture.

A bilious attack? For results, see the Firemen's Concert, Dec. 18th.

\$1.00 purchase will entitle the lady to an Old Willow China cup and saucer or sterling silver thimble, at Humber's annual opening, Saturday.

Edgings and slabs, 4 ft. lengths, \$3 per cord delivered. Apply Great West Lumber Co.

Balance of untrimmed hats at 75c each at Mrs. Jarvis' millinery store.

Needles to fit any kind of sewing machine at N. White's Secondhand Store.

Christmas goods for men—where the choosing is good—at Brown & Fulton's.

A Red Deer West account would make a mighty fine Xmas box for your boy or girl.

The best opportunity yet to purchase Xmas gifts, Saturday, 7th, at Humber's, 20 per cent. off.

Ha! You ought to get that calendar framed.

Let's see, what have I arranged for next Tuesday evening? Why, sure, the Firemen's Concert in the Town Hall.

Balance of untrimmed hats at 75c each at Mrs. Jarvis' millinery store.

Needles to fit any kind of sewing machine at N. White's Secondhand Store.

WHY NOT BOOKS FOR XMAS?
Be sure and get your vase at Snell's on Saturday.

Garling sweaters, all prices, at Brown & Fulton's. If you buy your Xmas gifts at Brown & Fulton's, they wrap them for mailing.

A Red Deer West account will teach your boy to be saving and industrious.

The newly elected Councilors will all be in attendance at the Firemen's Concert in the new Town Hall, Dec. 10th, 1912.

Mail one of Snell's souvenir spoons to your friends away.

Jacket bath robes, smoking jackets, slippers, etc., at eastern prices, make excellent Christmas gifts. Get them at Brown & Fulton's.

P. K. Griffin puts up good value for money received.

\$1.00 purchase will entitle the lady to a silver thimble, or an Old Willow China cup and saucer, Saturday, at Humber's.

The steam heating plant has been completed in the new Town Hall, all thanks to the Firemen's Concert, Dec. 10th.

Money is a hard worker if you give it a chance. Open a Red Deer West account and your money will kick about and day for you.

Snell's jewelry opening on Saturday.

Brown & Fulton are showing an elegant line of Oriental silk neckties, with tie to match, for Christmas.

The chief nearly broke his neck the other night. What a blessing he didn't—we could not postpone the concert from Dec. 10th after making such splendid arrangements.

Balance of trimmed hats from \$1.50 to \$2.50 at Mrs. Jarvis' millinery store.

THE NOMINATIONS

F. W. Galbraith, Mayor—Big Race for the Council and School Board.

The nominations on Monday last resulted in the return of F. W. Galbraith, editor of the Advocate, for Mayor, by acclamation.

The nominations for Councilors were lively, and a number of good men are in the field.

The following were the nominations:

MAYOR
F. W. Galbraith, by acclamation.

COUNCILLORS.
John Malcolm.
W. Lord.
G. W. Smith.
K. M. Byers.
J. A. Carswell.
A. S. Carr.

PUBLIC SCHOOL TRUSTEES.
R. L. Gaetz.
W. E. Payne.
A. T. Russell.

SEPARATE SCHOOL TRUSTEES
A. Turnbull.
L. Reay.
E. H. Humber.

Three Councilors are to be elected, and two Public School Trustees. W. E. Payne and R. L. Gaetz are sure of being returned by a large majority.

There are not many Red Deer Wests.

Misses' whole pearl rings, in solid gold mountings, \$3.50, at Humber's.

M. McKlenburg, M. A., eye specialist of Edmonton, Alta., will be at the Arlington Hotel on Tuesday, December 24th.

NOTICE

Notice is hereby given that an application will be made to the Parliament of Canada at its present session for an Act to incorporate a Railway Company under the name of Calgary, Edmonton and Port McMurray Railway, with power to construct, lay out and operate a line of railway to be operated by electricity or by gas, gasoline, steam or other motive power.

(1) From a point at or near Calgary in the Province of Alberta, thence by the most feasible route therefrom to a point at or near Edmonton, thence by the most feasible route passing west of Lac la Biche to Port McMurray, thence northerly following the Athabasca River to Chipewyan, thence northerly by the most feasible route west of the Slave River and passing through or near Fort Smith to Port Resolution on Great Slave Lake.

(2) From a point at or near Port Smith in a westerly direction by the most feasible route to Port Vermilion, thence southerly by the most feasible route west of Peace River to Peace River Landing, thence in a south westerly direction by the most feasible route to a point at or near Dunegan.

(3) From a point at or near Red Deer North of the fifty-second parallel to a point at or near Red Deer; with power to construct and operate and lay out and telephone lines and to charge tolls for the use thereof; to develop, receive, transmit, distribute and supply electric or other power and energy and to dispose of the surplus thereof and to collect charges therefor; to construct, acquire, charter, operate and dispose of steam or other vessels of any kind and description and to construct, acquire and lease terminals, facilities, wharves, docks, elevators, warehouses, etc., and to carry on the business of forwarding agents, wharfmen and warehouse men; to build, purchase, lease or otherwise acquire, manage or control hotels and restaurants and parks, and to purchase, lease and hold the lands necessary for such purpose; to establish and operate a service of traction motors or cars for collecting, carrying, transporting and delivering freight and passengers, and to collect rates and charges therefor; to acquire, hold, collect, pledge and dispose of stocks, bonds and other securities of any railway company, or of any transportation, navigation, terminal telegraph, express, hotel or other company authorized to carry on any business incidental to the working of a railway; to issue any portion of its capital stock as preference stock with preference and priority as respects dividends or otherwise over ordinary stock as may be declared by a resolution of the ordinary shareholders of the company; to borrow money upon the issue of bonds, debentures, debenture stock, perpetual or term bonds or other securities, for the acquisition, construction, extension or development of any such properties, assets or works as the company may be authorized to acquire, construct or operate, and to enter agreements with other companies.

Dated at Ottawa this 28th day of November, 1912.

Confidential!

Information in regard to an investment often enables the lucky recipient to make a more, than in some cases have meant fortunes. The information we give is not confidential for it is known by everyone.

There are some things so evident that it would be impossible to keep it quiet. You can't hide a mountain under a bushel. Just this week we were told by a traveller who speaks with much authority that outside of the large cities no town in Canada so impressed him as did Red Deer. The growth and prosperity of our town and community is known everywhere, and its future is so promising that it does not take an expert to know he can make money and lots of it, by buying Real Estate right here. The only question is where and how to buy. Our ten years experience in handling Red Deer real estate, we believe, qualifies us to be your guide.

RED DEER---A PROSPERITY CENTRE

Prosperity loosens the purse strings. This applies to men, to towns, and to cities. One secret of profitable investment is to invest where business is best and money comes easiest. To scatter your investment here, there and anywhere, regardless of the prosperity of the places invested in is a waste of money. The better way is to aim your investment. Place it where conditions are sound, crops good, construction active, in short where the whole movement is one of expansion and not retrenchment. In other words if you want to get the biggest return from your investment choose a town where the tide is coming in and not running out. Choose Red Deer.

Some very great and gratifying improvements have taken place and are taking place in Red Deer.

The Town census of October, 1912, shows an increase of over 33 1-3 over June 1911. The building permits up to November 1st 1912, shows an increase of over 40 per cent. over the corresponding period of 1911. This year the Alberta Ladies' College is being completed at a cost of \$85,000 to \$100,000; it will be opened in January. Another wing has been added to the R. C. Convent at a cost of \$25,000. The Merchants Bank are building a fine \$30,000 office, making the third of Red Deer's splendid bank buildings. The Bank of Montreal have opened up a branch in Red Deer. The Michener corner is having \$25,000 spent on it in additions and improvements; the H. H. Gaetz block is being refitted on modern lines. The Hospital building has been doubled in size; the Red Deer Fair, with its four new buildings, has taken on new life; the Town office accommodation has been trebled; St. Luke's Church has erected a parish hall. And never before have so many fine residences been added to the Town's accommodation.

The Alberta Central has finished its grading from the river to Rocky Mt. House and the steel will be laid next spring. It is renewing this Parliament all its many charters for extensions from Red Deer. The C. N. R. have been running a weekly train service West, which will be put in better order next year. The C. P. R. have laid three miles of new siding in their terminal here. The Great West Lumber Co., the Valley Lumber Co., the Cement Builders Limited, the Piper Brick Co., the Laurentia Milk Co., the Farmers Co-Operative, the Gaetz Co., wholesale dry goods; the Red Deer Holdings, nurseries and foundry, have increased their bounds and have laid the foundation for a busy manufacturing centre.

Red Deer's champion prize-winning dairy herds have been adding to their laurels. Rosalind of Old Basing has attained the Championship of the British Empire in a consecutive three year test for milk and butter yield.

Next year the Western General Electric Co. will put \$100,000 into a new plant, new buildings, extensions, etc.; the \$100,000 new Dominion Post Office, for which a preliminary grant of \$10,000 was voted at the 1912 Session, will be built; a new Court House is projected; the B. F. Ackerman Co. will establish a wholesale house here; the Red Deer Holdings will have their industries comfortably housed and in running order. And many other projects are under way.

No town in Alberta has the prospects before it that Red Deer has with its river, its railways, its educational facilities, its manufacturing plants, its distributing facilities, its central services, its magnificent residential situation, its splendid dairy country, and its strategic central position for A GREAT AND GROWING CITY.

Last Spring there were two houses on Red Deer West. Today there are twenty-one homes on Red Deer West, and two or three more are building. And there are good reasons for this remarkable development.

RED DEER WEST is close in, it is convenient, it is easy of access; it is high and dry and healthy; it is progressive, profitable property; it is making money for other people—and the sooner you get it the more you will make.

A LOT IN RED DEER WEST, either for investment or a homestead, is the best buy in Red Deer today. You cannot invest your money to better advantage.

YOU will never have another opportunity to buy property of this character at anything like our price—\$150 and \$175 per lot.

YOU KNOW what Red Deer has done in the past; what it is doing today, and it does not require much faith or foresight to see what it will do in the future.

YOU CANNOT take advantage of this opportunity by merely thinking about it. You must decide and quickly, too. Make up your mind RIGHT NOW to investigate RED DEER WEST—then you'll invest.

THE SMITH LAND COMPANY 30 ROSS STREET, RED DEER

RILEY WINS HIS SUIT AGAINST LOCAL PAPER

Calgary M.P.P. Vindicated in
Supreme Court of Charges
Made by Capital.

Edmonton, November 29.—Four hundred dollars and costs was the decision given by Justice Sifton, Wednesday afternoon, in the Edmonton Daily Capital for libelling Harold W. Riley, the Calgary representative in the provincial house. The trial was committed at the last session of the legislature when the local paper produced a statement to the effect that Mr. Riley had influenced the Calgary council in making the assessment of property smaller than it should have been. Mr. Riley immediately took action against The Capital and his judgment was given in the supreme court last evening. J. D. Hyndman was the legal representative of Mr. Riley and O. M. H. appeared on behalf of the defendant.

THE SUPPRESSION OF VICE.

Probably many were recently shocked and grieved to learn from the reports of the Secretary of the Temperance and Moral Reform Board of the Methodist Church, that Canada yearly pays toll amounting to \$25,000,000 to social vice. Before such statements from so reliable a authority, we pause with bated breath. Yet to be silent would be a sin. We believe the uplifting of Canada can only be accomplished by a nationwide assistance, a publicity of conditions hitherto unknown, or a complete change in the attitude taken by members of the church, by mothers and fathers, and by schools both Sunday and secular. To think that in Canada, the country which has only been discovered within the last 10 or 12 years, the land which one of our great politicians describes as "this new constellation in the western sky," this possession of British empires as the apple of her eye, the pride of the twentieth century, the gem of the British crown, the envy of nations to think that this vice should abound. As we are not blind and deaf to our great progress, let us not shut our eyes or ears to our awful sin. We ought to blush at midnight when we think of a traffic whose horrors for the present and the future generations cannot be conceived of, it is enough to make even hell blush and heaven weep. Yes, and to make both places sadder. This vampire saps the strength of youth, and cripples even the old age; truly so deadly a sin--should sit the most indifferent and inflame the heart of the most ardent reformer. We cry out in agony of soul for the oppressed child victims, and the innocent girls blindly entrapped by the traffic; it makes us ready to champion their cause at any cost, and to punish the instigators down to the last. The church has been asleep not to have seen long ago the was of blood flowing from the wounds of these victims of vice. She is now only beginning to rub her eyes and take in the situation. We have been so busy fighting the "white plague" which only touches the body that we have overlooked the "black plague" which destroys both soul and body. Let the churches lift upon their knees, and with faces in the dust plead that the cause be removed for the sake of the children; the children's children that shall follow. Have we a religion without a soul? as a religion without sacrifice? Can we as church members with regular pulse and cold blood look unmoved upon these awful figures and hold them--they deserve they represent. Further have we come to, a happy era, an era of reckless legislation and injurious compromise; an era in which we have gained in in-

heritance while we have lost in moral achievement. • • • lament from time to time the unfulfilled promises of politicians, but are we barren of statesmen--real, not charlatan statesmen--who prize the honor of Canada above the interests of party? men who really hate sin oppression, and will demonstrate their detestation of it, not by pleading insincerity from condition punishment for the instigators of foul and atrocious crimes, but by the laudable assistance which they render in the name of Canada to the weak and erring in their desperate struggle for right and for freedom from the yoke of those inhuman monsters of sin.

In all this we may be pessimistic, not hopeless; critical, but with not one shade of contempt; candid without being censorious, and with great tolerance because we too may have been to blame. But by exposing our weakness while extolling our strength. Let us each search for our own responsibility and see if this social vice problem is not a greater menace to the national life of Canada than many imagine. They too do we always put the blame of this vice in the right place? Does our own negligence and our own laxity, have no part in helping the opportunity for sin?

Sport News and Views

(By Old Sport)
BOXING

The lightweight boxing champion ship of the world was decided at San Francisco on November 28th. The combatants were Ad. Wolgast and Willie Ritchie. It was a very tough battle, and looked like Wolgast just about retaining his title of champion, but in the 16th round Ritchie had him beat, though not being able to give the knock-out, Wolgast, whose eyes appeared to be glazed, struck Ritchie in the groin and was swung by the referee of the bout. He, however, repeated the blow, and the referee awarded the decision to Ritchie, who is now lightweight champion of the world.

WHAT WOULD YOU DO?

Tommy Burns has received the sum of \$25,000 to fight on more battle, and that with the winner of the triangular contest between Flynn, Palmer and McCarthy.

BOWLING.

The bowlers are having a fine time all their own, and the games are proving very interesting. Human nature requires an outlet for its sporting instincts, and we all manage to find the sport best suited to us. A couple of weeks ago we had not heard of any one being interested in bowling, and here they are travelling away from home and back again, putting their strength up against all comers. On Wednesday night of last week Lind-fall came to

Red Deer, and were beaten by 238 pins. Red Deer's total, 2037; Innis-fall, 1799.

Lacombe proved too strong for Red Deer in both matches, although Red Deers improved in their second venture, only being beaten by 177 points.

OLD COUNTRY FOOTBALL.

Times are happening in football circles in the Old Country. The southern teams, who have gone so long without a win, have found their form, and are making some of the "sure things" in the game look very small. There is as great an uncertainty in football as in other sports. The coming holiday matches will have a big bearing on the placing of the teams at the head of the different league tables.

Cold Sores and Ulcers Are Healed by Zam-Buk

Cold sores, chapped hands, ulcers, and winter sores are common troubles just now, and for all these Zam-Buk will be found the surest and quickest remedy. Sometimes cold sores arise from chilblains on the toes or fingers, and in the former case, where colored socks are worn there is a danger of blood poisoning from the dye. Zam-Buk being so powerfully antiseptic removes the danger as soon as applied and quickly heals.

Mr. W. J. Haliday, of Ash Grove, Ont., says: "I had my little finger frozen, and it cracked at the first point, causing a bad sore, which was charged freely and would not heal. The pain was very bad, and the whole of my hand became swollen and in bad shape."

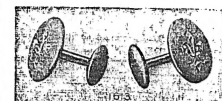

"A friend advised me to try Zam-Buk, and I soon found that Zam-Buk was altogether different to any preparation I had ever tried. In a very short time it healed the sore."

Miss Lillie May, of Stoney Creek, Ont., says: "A few weeks since I was very busy, discharging cold sores suddenly broke out on my lips, which became much swollen. Seeing my condition, a friend advised me to try Zam-Buk and leave all other preparations aside. This I did, and was much pleased, after a few applications of this balm, to see every sore healed."

Zam-Buk will also be found a sure cure for eczema, blood-poison, varicose sores, piles, scalp sores, ringworm, inflamed patches, babies' eruptions, and chapped places, cuts, burns, bruises, and skin injuries generally. All druggists and stores sell at 50c. box, or post free, from Zam-Buk Co., Toronto, upon receipt of price. Refuse harmful imitations and substitutes. Use also Zam-Buk soap, 25c. tablet. Best for baby's tender skin.

Annual Town Meeting Friday

(Continued from Page 3.)
Acting Mayor Carscadden read the Mayor's address and Mr. Ayers read the financial statement, after which the meeting was thrown open for discussion.

The chairman asked for any criticism of the reports, but the meeting appeared perfectly satisfied with the financial standing of the town and the splendid work done during the past year.

F. S. Simpson, Chairman of the School Board, was called on and gave a most comprehensive and lucid address on school matters. He reviewed the excellent work being done at the present time and spoke of the intentions mapped out for the future. The Board have planned to build schools east, west and north east, as soon as the number of children will warrant such a move. The old school building will probably be removed in a short time, and the Board have already discussed the advisability of building a new high school, fully modern, and using the present large new school as a central public school. This will either have to be done, or a large public school will have to be built, as new pupils are filling up all vacant space. Although new schools have been built in North Red Deer, and the South end, all this takes money, and the Board would be asking for less funds from the town but more. The cost of running the schools the present year will be about \$15,000 and there will be a small overdraft at the bank. He paid a very high compliment to his associates on the Board by stating that they were doing their well known ability alone that it was possible to produce such splendid results. He showed that school were coming from all over the province and all parts of the province and our school was recognized as one of the best in Alberta. Our teaching staff was the most able that could be procured, and they were all doing their work well and were experts in their line. He predicted a brilliant future for Red Deer school.

W. E. Payne, M. A. Munro and J. A. Carscadden made short addresses on behalf of the School Board. Mr. Payne pointing out the splendid results accruing from the efforts of the Board in advertising our school abroad.

The meeting was then thrown open for general discussion, with Acting Mayor Carscadden in the chair.

F. W. Galbraith made a brief address, asking for the support of the electors for the position of Mayor. He favored municipal ownership, single tax and the property rating for frontal improvement in the shape of walks and roads.

Councillor Malcolm made a few remarks, stating he was in the field for reelection, and Councillor Bottrell also made a short address.

Dr. Colison, Medical Health Officer, and Fire Chief Meers also read their annual reports, which will be found in the Council proceedings in another column of this paper.

G. W. Smith, W. E. Lord, A. S. Carr and J. A. Carscadden announced themselves in the field for the position of Councillors, and W. E. Payne, R. L. Gaetz and A. Rowell for School Trustees.

William Piper found fault with the twelve foot concrete walk in front of his residence, Gaetz Ave., South; he said a 6 or 8 foot walk would have been ample. He also pointed out that the sewer and water pipes had been closely cemented into the bridge, when they should have been incased so that they could be removed if necessary. He spoke of Gaetz Avenue South as a canal, and it was almost impossible to get a load of brick to pass over it. He thought it would also be had in the spring. He had informed the Council the water pipes under Gaetz Avenue were leaking and the water running into his cellar. He had been informed it was a spring. He noticed when the pipe was fixed the spring dried up and his cellar also.

Engineer Dave said Gaetz Avenue South was fixed as soon as it could be, and the pipe through the bridge would be carefully watched.

Councillor Bottrell said Mr. Piper was notified with regard to his concrete walk but had made no objection.

Mr. Hadley, Mr. Wilson and others made brief addresses, after which the meeting adjourned by the citizens singing the National Anthem.

At this juncture a thing happened which we hope will never occur again in Red Deer.

A. S. Carr put his hat on while singing the National Anthem, and Harold Small pulled it off. Carr put it on again, and when it was said, he would take his hat off to the people but not to Carr.

At this juncture Councillor Bottrell appeared to be about to attract him, and was speaking in a loud tone and the last words were not heard, but we understood him to tell Carr not to say the word.

Secretary Ayres turned off the lights, as W. H. Hadley, William Piper and others were walking towards Carr, and a general rush was made for the door, saving the situation, and the bilious Socialist rough handling.

Alberta's Population Is Now 500,000

Statistics compiled by Charles S. Hotchkiss, commissioner for Alberta, show that the population of this province has increased between 90,000 and 100,000 during the last fiscal year, as compared with 70,000 the year before. He estimates the present population of Alberta at 500,000, as against 372,238, shown

by the last federal census. His reports indicate that one of every four homesteaders settles on farm lands. Many of the newcomers are experienced farmers from England, who bring a knowledge of mixed farming and dairying. Plans are under way to bring as many people as possible from Great Britain, where 200,000 men are ready but without sufficient funds to end the journey to western Canada. Mr. Hotchkiss said: "All that Alberta needs is more men and women."

DANES IN CANADA

Vice-Consul at Ottawa a Great Factor in Bringing Out Fine Settlers

Perhaps the only Danish family in Canada that can boast of being represented by four generations residing in the same locality, is that of Vice-Consul Meyer, of Ottawa. The eldest, Mrs. Anne Meyer, is still an active and hearty; then come her son, Carl Conrad Meyer, her grandson, C. Robert Meyer, and her great-granddaughter Baby Anne Meyer.

Mr. Meyer is one of the most distinguished Danes in this country. Ever since coming to Canada in 1855 he has been a prominent figure in the comparative poverty he rose into the limelight of responsibility and nationwide esteem.

Physically the consul is a typical Scandinavian. Besides his diplomatic duties, Mr. Meyer is proprietor and editor of the Danebrog, a weekly paper that he established in 1893. Through this medium he has been responsible for bringing many thousands of Danish immigrants into the northwestern provinces of Canada where, as agriculturists, they have prospered splendidly.

"I am a British subject," said the consul in an interview, "and a great believer in the naturalization of who come to this country to make their living. There were very few Danes here when I came out and Ottawa had only 25,000 inhabitants, but I stuck to the ship, did all that I could for the benefit of my people, and I feel that I have pretty good results to show for it."

TRIBUTE TO SOBRIETY

Liquor Man From Antipodes Says Canadian Most Sober in World

"The Canadian People are the most sober in the world," said Mr. W. A. Lloyd, the official lecturer of the Liquor Traffic Defence Association of Western Australia, after travelling through the Dominion while on a tour of the world to study the liquor question.

"I visited South Africa and all parts of Great Britain," said Mr. Lloyd, "with the object of making a first-hand, systematic study of the liquor habits of the Empire. I visited the Continent of Europe also, and must confess Canada appears to me to be the most temperate part of the Empire. I am not prepared to say that your restrictive legislation, as applied to the liquor traffic, is responsible for this eminently desirable condition of affairs, but whatever it is, Canada is to be congratulated on the sobriety of its people. I think that those countries, such as France, which encourage the drinking of light wines and low fermentation malt liquors, have done more to solve the liquor problem than any other country."

When the division bells ring, the whip bursts into the greatest activity. From every hole and corner of the building members are hurried up and marshalled in the corridors or sent into their seats. When the whip is sure that all the men they can get together are ready, they arrange them in two parallel lines and march into the chamber, bringing up in rear like a pair of sheep dogs with their flanks in front. Their appearance is always the signal for cheer and thumps on the desk, a little ceremony as old as Parliament itself. Then the whip is kept in the watch as the vote is read over. With his division hat in front of him he checks over each name as it is called out, too that the other side is up to its agreement as regards the pairs.

Historic Chester
Excavations for the extension of Chester Infirmary brought to light numerous Roman graves. The site being undoubtedly that of a graveyard used by the Twentieth Legion of Romans during their occupation of Britain. The daily feature much above of a mother an abode who had been buried together. Near the next stone Roman soldiers in a wonderful state of a mother and babe who had been buried, tiles and other articles were secured in great quantities.

Most Densely Populated
One of the most densely populated spots in the world is O-der Street, Tokio. It is extremely narrow - so that the density of the crowd does not make the daily feature much above of a mother an abode who had been buried together. Near the next stone Roman soldiers in a wonderful state of a mother and babe who had been buried, tiles and other articles were secured in great quantities.

No Menace to Shipping
The Department of Marine and Fisheries did not find it necessary to take any action toward breaking up the Gulf of St. Lawrence, or (as the records of her collision with the Empress of Britain. The depth of water in which she lies prevents her from being a menace to shipping. The depth is 180 feet, and since the vessel is sufficient depth for a waterway a week or two far from the reach of the deepest draught vessel.

Buried Too Quickly
Montreal's Health Officer Confident Many Tragedies Occur as a Result

That many people are buried alive in Montreal was the belief expressed by Dr. Louis Laberge, Medical Health Officer. This, he claimed, was because of the habit of quick burials. Many people are interred inside of twenty-four hours after they are pronounced dead, and there is no means of knowing whether or not they are in a state of lethargy.

He called attention to a case in point in Whistler and advocated that a law be passed to force the relatives of the deceased to wait until all possibility of the supposed dead person being alive is past.

The Blue-jacket's Kerchief
It is not generally known that the blue-jacket's black neckerchief, a survival of the service mourning for Nelson, is the best British silk obtainable, and that the Admiralty is a very fastidious customer.

Every four years, and many thousands of these discarded scarves are subsequently worn by Jacks' femininity. A pair of them make an excellent blouse.

Bagged a Bull Moose
A remarkable feat was accomplished at the woods some twenty miles north of Quebec by Miss Langelle, daughter of the Lieutenant-Governor of the province. The young lady, only eighteen and just out of the convent, shot and killed a magnificent bull moose while on a hunting trip with a party organized by Mr. Gustave Langelle, her cousin.

IMPORTANT WORK OF PARTY WHIPS

They Have Much to do on the Inner Side of Parliamentary Life

In the good old days when red faced squires rode to hounds in the fine old English fashion, an active gentleman, armed with much who it, and a long lashed whip, was a necessary accompaniment to each successful hunt. He was known as the "whip in," and his duty was to put the fear of man into the hearts of the ill-bred hounds as peevish rabbits and the neighbors' chickens to the more orthodox delights of the chase.

Today in all Parliaments there is a survival of the old whipper-in. The have cut his name of "whip," and the naughty hounds are represented by less active, but none the less fractious, members of Parliament. He is not allowed to use a whip on the floor of the House, but he has force at his control that are much more powerful.

The whip is the most influential of the private members of the House. Instead on the floor of the House he is supreme, next to the leader of the Government. All the parties represented in the House have their whips, but the whip of the party in power is course the most influential. His first duty is to see that there are always enough members of his own party ready to prevent a bill at any division that may come on unexpectedly.

Of the private members of the House the whip is also the administrator of the patronage which remains to the House. He is paid an annual salary of \$10,000. Assistant whips get \$2,000.

No Sinister Here
In Canada the whips get no additional salary paid by the Government. They are of course at liberty to pay their whips if they please. The only prerequisite which Canadian whips enjoy as a private office, and a secretary whose salary is paid by Parliament. Besides the chief whips there are assistants to the chief, as well as whips for each of the provinces.

Being a whip is about as restful a job as being a member of the House. From the time the House meets until it rises again he is "on the job." He must know where the members are, he must see that they do not get out of touch, and he must have a fairly shrewd sense of what the other side is up to. Without a certain amount of understanding between the whips of the different parties it would be impossible to carry on the business of the House. As a matter of fact the whips usually have a lot of friends, and one who has strict ideas about party lines would often be shocked by the evidence of the fellowship displayed among them.

Needs Tactful Man
One thing that a successful whip must have is tact. Take the case of a late night sitting without anything important in sight. The majority of members are tired, and the subject under discussion is uninteresting. The whip must be tactful enough to suggest a recess, and to suggest a subject of interest to the members.

A DISLOYAL ACTION.

The episode at the Town meeting, Friday night, when A. S. Carr, a candidate for municipal honors, refused to take off his hat to the King, illustrates strongly the fact that it is not well to allow such disloyal actions to pass unchallenged. So early and so unanimous was the action of the citizens present, that had the lights not been turned off, the gentlemen would have been roughly handled. One suggested putting him under a tap, others more drastic measures. It is said he sang the National Anthem, and he claims to have attempted an explanation, but to put one's hat on in an audience of local citizens, and when it is taken off, put it on again in open defiance, is an insult to the municipality, to the province, in which we reside, to the Empire, our flag and our King, and such action will not be tolerated for one moment by the loyal people of Red Deer.

THE BYE-ELECTION.

Owing to the fact that Councillor Galbraith did not retire from the Council in time to hold the nomination to fill the vacancy caused by his resignation, at the regular time, nominations will be held on Friday next, and H. G. Murrin, head of the Cement Builders' Limited, will be a candidate. Mr. Murrin withdrew from the nominations on Monday for that purpose. He is a man eminently fitted for the position, having a technical knowledge of electricity and applied science, and would be a valuable man on the Council Board. We have not heard of any other candidates for the position as yet.

THE PRICE OF BEEF.

The Calgary Albertan has been shouting about the high price received for Canadian beef on the Chicago market, and Geo. Lane is the gentleman who has been making so much on his cattle. But other well known cattle men say Geo. Lane has not made out of his shipments to Chicago so much as he claims he has. How he can make from \$11 to \$30 a head more and pay all expenses, with beef cheaper there than here, is unreasonable.

We publish the following prices of meats advertised in the Daily Independent Times, Streator, Illinois, November 15th, a town ninety miles from Chicago, to show that the price of meats on the open market there is far lower than the prices in Alberta.

Port loin roasts.....	12c
Port chops.....	15c
Port picnic hams.....	12c
Pork brand hams.....	16c
Skinned hams.....	12c
Selected hams.....	18c
Choicest beef pot roasts.....	10c
Choicest beef rib roasts.....	11c
Four quarter lamb.....	5c
Half quarter lamb.....	10c
Lamb chops.....	12c
Veal Roasts.....	12c
Pork sausage.....	10c

This same Geo. Lane is the man who said farmers were getting too high a price for their horses in Alberta, and we should reduce the duty so as to allow American horses to come in and beat down the Canadian price.

precipitated an unpleasant experience for the offender, but for the fact that it was so wholly and unexpectedly sudden. The action was loudly resented, and created a great deal of indignation. What more do Socialists want in such a matter than the curbing of the royal prerogative, and representative government? The thing is more loudly resented today than ever and he has less power, and of arbitrary power, he has almost none. To all intents and purposes we are part of a republic, our freedom and our prosperity are greater than ever, and as an insult to the King is not to be tolerated or condoned by loyal and self-respecting citizens.

If the columns of The News were not crowded this week, we should like to go at length into the reports presented, and into the merits somewhat of the various candidates up for election, and action.

The report of the Chairman of the School Trustees Board was most interesting, and was ably presented by Mr. Simpson. The policy of the trustees should be better known and we trust the facts as briefly indicated by the Chairman will in due time be laid before the people in printed form.

There are some matters in the report of the Chairman of the School Board which we would like to see upon did space permit. Sites for future schools have been wisely chosen in various locations in anticipation of future development. This is a commendable plan. No charges are made for tuition in the school, and the excellent name and fame of the Red Deer High School. This is also a commendable plan. The Chairman's words of praise for principal and teaching staff was well merited. We have a boy at school, and if the schools of the town were judged by his progress and by his reports, then the parents have reason to feel satisfied.

The report of the Medical Health Officer was not a surprise to us, for our own observance has already led us to comment on the markedly good health and general cleanliness of the town. The habit of looking every summer for typhoid has become so fixed through residence in Calgary and other small places in Alberta, that we looked for the same conditions here, being happily disappointed. The Health Officer with regard to meat and food inspection and sanitary inspection should be carried out by the new Council.

The report of the fire chief was also one of which to be proud. For a voluntary department, it is a credit to our town. Undoubtedly the personality of the Chief has much to do with the success of his department. The fire hall, besides being headquarters of a fine body of young men, interested in the particular business for which they devote their services, is a clean and decent place in which to spend an evening. We have twice had this pleasure. Some such halls are places of infamy, but the moral tone in Red Deer fire hall is excellent. The men are clean young fellows deserving of our best appreciation, and the Chief is a leader in whom they and the townpeople have entire confidence. The total loss by fire for the year, somewhere about \$1100, is in itself significant and needs no comment save the one word, efficiency.

The Treasurer's report was a gratifying document, and the financial standing of the town is cause for congratulation. The questions asked were answered with entire satisfaction by Mr. Stephenson. The administration of the town appears to be carried out both with efficiency and with economy. Considering the low tax rate of about 13 mills, and the small area of the town, this is a fine showing.

We take off our hat this week to the new Mayor elect. He is a good fellow, on which point public opinion is not divided, and he will make an efficient and devoted chief executive for our town. His cordiality, his Council experience, his warm interest in the town's welfare is second to none, and we feel sure he will have both the cordial cooperation of the people and the public confidence. Success to you, Mr. Mayor elect, and a happy and prosperous year of office.

Look at the ponies, gentlemen! John Carswell, Editor of the Red Deer News, will be in season in public life and well established in public confidence. Ken, Byers, successful business man and trusted manager of the Cushing interests and the Valley Lumber Co., G. W. Smith, one of the old tried and successful merchants of the city, John Macdonald, referred to as big, and he is in two ways, physically and as a man; W. E. Lord, than whom there is no man more deservedly popular, man of experience and initiative; and Carr, the Squire. There's a fine lot of horses for the Council race, gentlemen, all thoroughbreds, sound in wind and limb, and ready to start in the hand than others, and all with pretty good pedigree. Some are a little green, and there are some old horses in the bunch that will take some beating.

Bazaar at Penhold

"The Ladies' Aid of the Penhold Presbyterian Church intend holding a bazaar on Thursday, Dec. 12th, from 3 p.m. to 7 p.m. in the store next door to the post office. A splendid assortment of useful and funny articles will be on sale. Afternoon tea will be served in the tea room. A first class concert will be held in the church at 8:30 p.m., composed of Red Deer and Penhold talent.

Conservative Smoker A Grand Success

The first rally and smoker of the young Liberal-Conservative Association was held in the Oddfellows' Hall on Wednesday evening, November 27. The members and friends began to muster at 8 o'clock, and by 8:30 p.m. there was a crowd of about seventy present, which increased to close upon one hundred before the meeting closed. President Bottorill was in the chair, and in a very able though brief speech, welcomed everyone present, saying he was particularly pleased to see so many new faces, which went to show that a fair amount of interest was being taken in provincial affairs already, and that it also showed that they were willing to come and listen to the other side of the question, which was just what the Conservative party wanted them to do. We had every right to expect that Mr. Michener would win the coming election and as far as the Executive are concerned, they would work as one man for the cause of the Appliance.

Harry Johnson gave a pianoforte solo in good style, which was followed by a song "The Dear Little Shamrock," by W. H. Hadley, which was well received. The company who insisted on an encore being given, which was also duly appreciated.

Mr. Ed. Hunter was the first speaker to address the meeting. He spoke very earnestly for about thirty minutes, and was very well received. He was followed by Mr. H. B. George, who spoke for about ten minutes, and was also well received. Mr. H. B. George, son of Dr. George, who was in the selection of the violin, being handicapped somewhat for want of an accompanist on the piano. This was followed by a song entitled "The Barmy," by Lionel Page, who got a good reception.

Dr. Collison, the old war horse as he is called, gave a short address on education. The Doctor is always welcome on the platform for what he says is generally to be relied upon. He gave some very useful pointers which should not be forgotten.

Harry Webb was the next choice on the musical programme, and his solo on the horn, accompanied by Harry Johnson, earned a great encore, which was willingly given. W. H. Hadley appeared again and sang "Hurry the Night," in a style that brought great applause.

W. E. Payne was called upon by the chairman and, as is always the case, Mr. Payne was worthy of the honor, giving a stirring address on the issues of the day.

Sonny Reidy should have given a step dance after this, but there was no suitable place on the platform, and so he will be seen another time.

Before closing the meeting the chairman again thanked the company present for their attention, and exhorted them to read and learn, for they had a good case and one they were sure to win.

Great Array of Talent For Firemen's Concert

Tuesday Evening Next

The firemen have their programme all ready for next Tuesday night, and have decided that it is so full that it would be better to leave out the club swinging item. The programme is very complete, and this and cannot help but satisfy the patrons.

Father Volpin's orchestra, with Madame Ruth Hope playing the violin, will be a treat to hear. Many have already heard Father Volpin at different concerts, and lately Madame Ruth Hope, late of London, England, has delighted many with her playing at different concerts in town. Mons. Reverand, lately from France, is a flutist of no mean ability and will aid in the orchestra as well as give a solo.

Among the singers, Madame Guizot, who is teaching singing at the school, is a talented artist whom it is a pleasure to hear at any time. Miss Dolman, solo soprano in the Methodist choir, is too well known to need any introduction from us. Miss Huettis has sung many times to the public of Red Deer. She is a general favorite and her singing has delighted all who have heard her.

Among the new talent is Mr. and Miss Harrison, lately from England, who are each rendering something entirely new to a Red Deer audience. Mr. John, our popular tenor, is an attraction in himself. The same might be said of Mr. G. Johnson, the bass soloist of the Presbyterian choir. Mr. Padley and Mr. P. Kent are two old timers whom we are always glad to hear.

Mr. Calvin Chadwick and Miss Miller are giving a piano duet. These are two of our rising young artists of whom Red Deer may well be proud. Mr. Webb is a clever musician, and several instruments, and for many years, was connected with the Gaiety Minstrels as one of the leading artists. The programme has been arranged to suit the highest taste, and at the same time is light enough for everybody to enjoy and feel the happier for having heard.

Poplar Ridge

Rev. Bennett occupied the pulpit last Sunday afternoon and gave us one of his usual excellent sermons. He left next Sunday afternoon at 3 o'clock.

School closed last Friday afternoon with a concert and awarding of prizes earned by the faithful workers. Mrs. Austin has certainly done excellent work in the school and her departure will be deeply regretted.

Ed Walker was a visitor at Mr. R. Atkin's, Sunday. Mrs. Ed. Bowen met with an accident while driving to town last Tuesday. The horses, started to run and she was unable to control them. The wagon upset and she was thrown out. She received quite a few bruises, but no bones were broken.

UNIVERSITY EXTENSION LECTURES.

Dr. Boyle, Professor of Physics at the University of Alberta, will open a series of extension lectures at Red Deer school on Monday evening, Dec. 9th. His subject will be "Electricity, its conduction through gases and X-rays." He will show by a number of experiments the gradual development in the discovery of electric phenomena which led to the discovery of X-rays and radium, using for this purpose special apparatus, including X-ray equipment. He will show the relation of these discoveries to the thought of the leading scientists of today. Dr. Boyle is eminently qualified to discuss this subject in a popular way. He is a distinguished graduate of McGill University and has spent some time doing research work in the Old Land, particularly at Manchester, where he worked in association with Dr. Rutherford, the man who has done so much toward making known the properties of radium. The lecture will be given in the Assembly Hall, beginning at 8 o'clock. The extension lectures are given under the auspices of the Public School Board and are free to the general public, who are cordially invited to attend.

The dates of the remaining extension lectures in Red Deer will be January 6th and 20th, February 3rd and 17th, and March 3rd.

SHERIFF'S SALE.

Province of Alberta to wit: By virtue of a Writ of Execution issued out of the District Court of Wetaskiwin, at the suit of A. H. Russell, Plaintiff, and James Groundahl, Defendant, and to me directed against the goods and chattels of James Groundahl, I have seized and taken into execution the following goods and chattels, namely:

1 Bay Gelding,
1 Dark Roan Gelding, branded W on right shoulder.
Which I shall expose for sale on Tuesday, the 10th day of December, at Hewson & Sons' Stable, at the hour of 2 o'clock p.m.
F. S. SIMPSON,
Acting Deputy Sheriff,
Judicial Dist. of Wetaskiwin.

Thousands Paid For Votes Charges Protest

Bribery and Corruption Alleged and Many Local Business Men Involved

(Edmonton Journal)

The particulars of the corrupt practices alleged to have been perpetrated in the Ewing-Cross provincial by-election were filed with the clerk of the supreme court Thursday afternoon, in compliance with an order issued by the chief justice in chambers during the progress of the protest against the election of Hon. C. W. Cross, attorney-general.

Very serious charges are made against some very prominent local men in this part of the province. According to the particulars furnished, bribery and corruption were wholesale and widespread.

GREAT SUMS OF MONEY.

Railway companies are charged with running special trains deliberately for the purpose of bringing men here to vote, although these men are understood not to have had any right to do so. High-up railway officials are alleged to be incriminated. Members of the legislature are charged directly with handling money in the interests of the attorney-general for the purposes of preventing the election.

So much as \$50,000 is said to have been paid over in one sum to a prominent citizen of this city in illegal purposes in connection with the election.

Vast sums of money are recorded as having been wasted on the election, and are said to have been traced back either to the candidates whose election is being protested or to their agents.

CHARGES ARE NUMEROUS.

A great many charges are leveled against men well known in this city, who are accused of having unlawfully conducted the polling booth and in other ways interfered with the right of voters, and added to the voters' lists names of persons in no way qualified to vote, many of the names even being entirely fictitious.

Charges are made that licenses to sell liquor were given and offered for the influence of certain persons. The particulars were filed by C. F. Newell, in behalf of the petitioner, Lieutenant-Colonel W. F. W. Carstairs. It is thought the trial will be held early in the New Year.

Liberals Will Question Reality of Emergency

Should Not Delay Today's Decision, Says Mr. Borden, But Permit Advance.

Ottawa, Nov. 26.—Late last night Premier Borden gave notice that he will move the first reading of the naval bill on Wednesday. Unless the Premier asks to have it stand over until the debate on the speech from the Throne is through he will probably make his explanation of the bill then. The title of the bill is significant and is as follows:

"An act to authorize measures for increasing the effective naval force of the Empire."

Mr. Borden, in his very brief utterances in the House yesterday, also made it clear that the Government believes that even if war is not imminent or there was not an emergency that Canada should assist the fleet of the Empire and be prepared for an emergency. The following are the Premier's exact words: "I do not propose to deal with the naval question today, because the proposals of the Government will come before Parliament at a very early date, and we shall have full opportunity of debating that question. But he tells us that he had always heard that England feared no enemy. I would rather put it in this way, that the Empire fear no enemy. But, Sir, the fact that the Empire fears no enemy is not a good reason in my estimation why we should delay to day of a visible peril that preparation which ought to be made in advance."

Sir Wilfrid Laurier also gave a hint of the policy the Liberals will likely follow and they will question whether there is an emergency, but while their criticism may follow that line it is not believed they will summon up enough courage to move an amendment.

Bassano Adopts Light By-Law; Big Majority

Only One Vote Registered Against Measure Providing for Metropolitan Conventions.

The by-law to grant the franchise for electric lighting and heating at Bassano was put to the people of that town on Friday and passed almost unanimously. The vote was 89 for, and one against.

This means that the Calgary syndicate will put in a plant at Bassano, and by Christmas will have the lights in the houses and on the streets. Already work has commenced on the building, and the contractor is working under strict instructions to have it completed as soon as possible. The poles on the streets are being erected in all haste, and fixtures are being placed in the houses and business places to be ready for the juice as soon as it is turned on.

The Calgary syndicate interested is composed of the following: O. G. Devenish, A. W. Fry, James, The W. Fyfe, W. A. Watson, M. S. Kipling. The engineer appointed is E. L. McCougerty, of Bassano.

Letters to the Editor

THE KING OF ENGLAND.

To Editor of News.

Dear Sir.—If citizen who complained about "King of England" only travelled a little he would hear the expression more frequently. Britain was the old name of England before it was conquered by different European tribes; and only being in England, Scotland, Wales and small islands round the coast, but not Ireland or the Colonies. The term "Great Britain" is used when one wants to speak of the Empire. "British Empire." The King's proper title is King of the British Empire, Emperor of India and defender of the faith, but one cannot give him his proper title every time he is spoken of, and no one who has studied history deeply will object to old time expressions. Hoping this will not be an argument any more students of history. This may be of use to others.

I remain, yours truly,

BRITISH PATRIOT

A LIBRARY.

To the Editor of The News.
Dear Sir.—In your paper of a week or two ago you suggested that a free library would be a desirable institution to establish in this city and asked for the opinion of readers on the subject. It is not necessary for me to take up your space in enumerating the advantages of the community having ready access to literature, especially books on educational and scientific subjects, many of which are only obtainable by the average person through the medium of a public library; so I will content myself with saying that I, for one, am in favor of establishing a municipal library in this town, and also believe there are a large number of citizens in favor of such a proposition. Hoping to see further expressions of opinion on this subject.

Yours truly,

A. S. CARR

Protective Tariff Upheld in Senate

Seat of Michael Sullivan is Declared Vacant After Two Years' Non-Attendance.

Ottawa, Nov. 30.—In the senate a resolution was adopted declaring vacant the seat of Senator Michael Sullivan of Kingston who has failed to give his attendance in the senate during two consecutive sessions. Senator McMillan, in closing the debate on the address, said he would not have spoken but for a senator's statement that Canada would do well to join her fortunes with those of the United States. Senator McMillan said he thought that there was now a single man in Canada who held such views. In the past this view was held by an organization known as the Union League. However, that organization had disappeared to the great comfort of everyone. Canadian warmly cherish the connection with England.

De-laying the trade reference in the speech, Senator McMillan said: "I was at one time opposed to a protective tariff. But as we grow older we grow wiser. I have come to the conclusion that there is no tariff under which a country may grow and flourish and all classes of people benefit as much as under a well considered and judiciously managed protective tariff."

Navigation Held Up On Lake Superior

Heavy North Wind, with Storm Prevalent—Boats Hurry For Shelter.

Port Arthur, Ont., Nov. 30. Lake Superior was swept last night by a heavy north wind, with storm prevalent, driving every boat to the nearest shelter. The C. P. E. steamer Keweenaw arrived at 11:30 after having been able to make only eight knots an hour all day in the face of the storm. At midnight p.m. the Port Arthur steamer, the Union was in communication with the C.P.R. steamer Manitoba, which was out of Tobinville, out of Owen Sound, and unable to make any headway. The Northern Navigation steamer Statonic has been in shelter at Whitefish Point since six o'clock last evening, and reports many others also taking shelter there.

Western Boom Is At It's Height

John Fenson Found Prosperity in Every Corner of the West. He Has Just Returned.

(Toronto World)

Mr. John Fenson, of the Ontario Fenson Co., has just returned from a six months' trip to the Canadian west, and is very sanguine about conditions as he found them in that direction of Canada. To the World he stated that the building trade and railway extension in the western provinces are going ahead by leaps and bounds. American capitalists are flocking into Vancouver, and railway companies in the western states are rushing their lines into British Columbia, looking for coming business in that prosperous section of the west.

Prince Rupert, Mr. Fenson states is booming, and the Grand Trunk Pacific is already laying foundations for immense buildings to accommo-

date its business on the Pacific seaboard. At the present time there are nine thousand people in Prince Rupert.

Mr. Fenson stated that the immense crops of the west are on the move, and that congestion of traffic as yet is not apparent. The western boom is at its height, and everyone is optimistic, said Mr. Fenson.

PRINCE'S UNIQUE HONOR

Prince Arthur of Connaught, who represented King George at the funeral of the Emperor of Japan, met with a unique honor at the hands of his late Majesty when he visited the Island Empire in 1906, to invest the Emperor with the Order of the Garter. After the investiture the Emperor received Prince Arthur in private, and drew from a lacquer box the ribbon and star of the Order of the Chrysanthemum, and with his own hands placed the ribbon on the Prince's shoulder and pinned the star on his breast. The Order is the highest in the Empire but this is the only instance on record of the Emperor designing personally to invest a recipient.

R. S. GOURLAY
of Toronto, who was elected President of the Canadian Manufacturers Association.

RICH IRON AREA

Coal and Iron in Huge Quantities One of British Columbia's Assets
With the construction of the big bridge over Seymour Narrows, connecting the Campbell River section of Vancouver Island with the mainland of British Columbia, an area of great mineral wealth will be made more accessible. The coal deposits are very extensive; in fact they are said to be almost inexhaustible. Up near the head of the Quilts river, an extension of the Campbell, there is a very extensive deposit of iron ore. What other minerals remain to be discovered in the mountain slopes, which flank this great timbered area, may surprise, but no one can really speak with certainty; but the coal and iron are of themselves sufficient to support a large industrial community.

As a timber country, the region seems to be unsurpassable. There are tens of thousands of acres upon which the sun's rays have not fallen for centuries, because of the strictly canopy of vegetation. The fir, the spruce, the hemlock, and the cedars support with their lofty, columnar trunks, about two million feet of lumber per day is being cut. Yet the forest wealth shows no sign of diminution in the casual observer. One of the most important and difficult problems presented for consideration is the use to which the sawed-off acres should be put. Some of them will, doubtless, be reforested. Much excellent pasture can be had even where many of the large stumps are left.

A MONKEY GHOST

Terrifying Appearance of Little Creature to Unsuspecting Chinaman

A small monkey which escaped from its quarters in the Medical Building of McGill University, Montreal, managed to fall into a pail of white paint, and having ascended its ugliness and white paint, appeared to an extent difficult to describe, he appeared ghostlike in the path of a Chinese laundryman, who, with a scream, fled. The Chinese started down the street at full speed, people rushed to the door and in the confusion a small alarm was sent in, which brought the engines to the scene. When the hubbub about the white and animal was captured, some frightened, probably, the Chinaman.

Built by Guelphites
The Anderson Memorial building in connection with the Guelph College, Assinippi, at the corner of the street, at which the superintendent is W. H. P. Anderson, a son of the deceased Guelphite for whom the building was dedicated has an inscription stone built into the wall bearing the name of the building, and stating that it was erected by friends in Guelph, Canada.

Electricity in Arabia
A modern electric plant has been installed in the palace of the Sultan at Oman, Arabia. This is the first instance of the use of electricity of any sort in that country. The installation was brought about by an Indian promoter from Hyderabad.

One General Wedding Day

In a certain district of Brittany, France, where the greater part of the population consists of fishermen, who are away for many months of the year, they have a strange custom which is observed on the day of the wedding in this district take place on one fixed day. This annual wedding day is a day of occasion for a general celebration by the inhabitants of the district, who feast the young couple with the greatest hospitality.

Beat up Traveller

Joseph J. Gaudet, a travelling salesman residing in Windsor, was set upon by five men and terribly beaten in Detroit, near the place in the Michigan State Capital. Gaudet is now having been mistaken for a strike breaker.

NOTICE.
Notice is hereby given that an application will be made to the Parliament of Canada at the next session thereof for an Act to incorporate a company under the name of the "Dominion North-Western Railway Company," a company with power to construct, maintain and operate a line of railway from a point at or near Regina, in the Province of Saskatchewan, there to a westerly direction to Tuxford, on the Canadian Pacific Railway, thence in a north westerly direction to a point at or near Red Deer, in the Province of Alberta. A branch line runs from a point within or near Township Twenty-three, Range Fifteen, West of the Third Meridian, in a northerly direction to Battleford, thence in a north westerly direction to Fort McKay, also to construct and operate telegraph and telephone lines and to charge tolls for the use thereof to develop, produce, transport, transmit, distribute and supply electric or other power and energy, and to dispose of the surplus thereof, and to collect rents and royalties therefor, to construct, acquire, charter, operate and dispose of steam or other vessels of every kind and description, and to construct, acquire and lease terminal facilities, wharves, docks, elevators, warehouses, hotels, etc., and to carry on the business of forwarding goods and passengers, and to employ men and to enter into agreements with other companies.

Dated at Ottawa this Twelfth day of November, A. D. 1912.
M. J. O'CONNOR, Solicitor for the Applicants.

NOTICE.
Notice is hereby given that the annual meeting of above Society will be held in the Town Hall, Red Deer, on December 7th at 2 p.m.
E. W. RICHMOND, Secretary-Treasurer.

HAVE YOU A DAIRY COW?

Local Papers in Saskatchewan Hand Out Advice to Farmers

The local papers of Saskatchewan as well as the farm press, are drawing the attention of farmers to the profits of the dairy industry. The Viscount Sun says in part: "Have you a dairy cow? If this question is asked of a Saskatchewan farmer to-day 95 per cent of them would have to answer in the negative. A dairy cow gives all the way from 6,000 to 30,000 pounds of milk per year. A 15-cent butter fat milk yields 2.5 per cent. butter fat. The ordinary milk animal costs from \$50 to \$80—the dairy cow from \$100 to \$200. An average milkier gives 3,000 pounds of milk per year testing about 2.5 per cent. Your dairy cow gives at least 9,000 testing 3.5 per cent. If you sell milk you make \$120 more from a dairy cow (6,000 pounds of milk at 2¢ per 100 pounds) and have all the skim milk from 6,000 pounds of milk to feed to the hogs. In short you will have to stable feed and care for three milkers to obtain the same results as from one dairy cow."

The Gull Lake Advertiser says: "What are you going to do with the products of your crop this fall?—your screenings, your sprouted sheaves your straw—the thousand and accessories of the bountiful grain harvest? You must find a market. You must be rich, and if so, this is for you. If not, utilize them to a profit. How?—by buying a few head of stock. Put that extra bushel here that a bountiful Providence and the fertility of Saskatchewan soil has given you into a couple of cows, a few pigs or a few sheep. You can buy a first class milking cow for \$90.00, three pure bred pigs, or a pair of a dozen grade ewes for the same sum. And in the spring there will be additions; dollars and cents every one. Beef as high as eleven cents per lb. pork up to nine and mutton up to six, live weight. Think of it."

BASIS OF BUSINESS

President Taft Says It is a Protective Tariff

One of the most striking features of the United States Presidential campaign is the tenacity with which the three candidates have adhered to the principle of moderate protection as the policy calculated to contribute materially to the national development of the country. In speaking on the tariff question last year President Taft said: "The business of the country rests on a protective-tariff basis. The public keenly realize that a disturbance of business by a change in the tariff and a threat of injury to the industries of the country ought to be avoided, and that nothing could help so much to minimize the fear of disturbance as the known existence of a reliable source of information or legislative action. The duty of the government is to maintain an impartial ascertainment of facts before any new revision is evidenced by an effort to pass a tariff-commission bill in the short session of the Sixty-first Congress in which many of both parties united. In his reference to the Wilson tariff of 1894 which gave manufacturers free wool but provided for duties on woolen manufactures the President said: "It is the only experience we have had for a generation of a radical revision of this schedule, and without exaggerating its importance, one pledged to a moderate protection policy must have been disappointed in approval without full information to legislation which makes a more radical reduction in the protection actually afforded to manufacturers of wool than did the Wilson Act."

THE WOOLLEN INDUSTRY

its Expansion Desirable in the Interests of the Whole Country

It is significant to note that the sheep industry has developed rapidly since the introduction of the British preference which has resulted in closing a large number of woolen mills in different parts of the country. A partial solution would be to revise the tariff on woolen goods. Dealing with the sheep industry, the Globe in a recent issue said: "Expansion of the woolen industry and sheep-raising industry in Canada is desirable in the interests of the whole country. There is a sure and constant market for wool because there is nothing to adequately replace it. To every nation that has a large industry it is a source of the highly profitable one of the best paying for the amount of work involved. Canada has natural conditions adapted to the raising of the best wool and wool as the new arrivals of our pioneers have proved, and we have proved, and we have plenty of waste land. As products of stock there are not only wool and meat but hides."

REDUCING THE COST

Mixed Farming Would Lower the Outlay on the Necessaries of Life

The Canadian Farm in a recent article in raising the cost of mixed farming in the three Western provinces when it points out that the cost of living can be decreased by its adoption. The article is in part as follows:

"No country in the world should be able to produce better or cheaper meat than those grain-growing provinces. Poultry of all kinds do well where they are kept on white milk and butter and cheese should be yielded in sufficient quantities to at least meet the local demand. Last year Manitoba alone exported upwards of 4,000,000 bushels of feed wheat besides a very large quantity of barley, while she imported more pork and mutton than she raised, and for months last winter Winnipeg imported milk from Minnesota. It is not because of difficulty in raising these products nor of the want of a good market for them that so few enter upon mixed farming. Nor is there a fear that the soil would be injured by taking up these branches of agriculture. Evidence from every hand points to the view with which abundant yields are secured and meat-producing animals developed. Last year the Canadian Conservation Commission had surveys made of 40,000 acres of Manitoba lands, and learned from the most dependable sources that yields are going back year by year, while weeds are increasing at an alarming rate. Nor is the remedy hard to find and to employ. It lies in extending the farming operations in the direction of producing the several necessities of life that are being imported in enormous quantities and so largely responsible for the high cost of living in the West."

The happiest farmer and the most contented, and really prosperous family, are those who seek profitable employment six days a week the year through and are able to see the returns coming in week by week to meet the emergencies of life. Such men have a most interesting career. They are seldom troubled by gnawing doubt and never run the risk of protracted privation.

POULTRY METHODS

Below we give the record of a pen of nine White Orpingtons belonging to Mr. Frank Smith, a New Brunswicker, who has been continuously endeavoring to produce the best result possible from his small flock. The records established do not furnish anything specially remarkable, but the account is interesting, if for no other reason than that each pullet was named, and the owner has been able to give the time each commenced to lay and the number of eggs laid up to a stated time. Mr. Smith states that at the time these statistics were taken, from 20 to 24 degrees below zero. In January he received 97 eggs from the five oldest. Following is the interesting record:—

At 1 yr. old. At 1 yr. 7wks.		
Queen ...	45	89
Edna ...	109	139
Diana ...	71	89
Mamie ...	61	80
Juliette ...	60	82
At 1 yr. 3wks.		
Red Wing ...	55	57
Beauty ...	123	132
Annabel ...	105	119
Bunch ...	40	52
Total	659	839

AN ANECDOTE ON THE COST OF LIVING

The high prices secured by the farmer at present for his produce are brought prominently to the front by the following anecdote from an American exchange.

"A Kansas farmer, so the story goes, came into town to buy a new wagon. The dealer made a price of \$70, to which the farmer objected, saying that he had purchased the same style and make of wagon many years before for \$50. The dealer explained that the advance in the price was due to higher cost of materials, etc., but the farmer was not convinced. After a lengthy argument it developed that the farmer ten years before had paid for the wagon with 600 bushels of corn; corn at that time bringing ten cents per bushel. 'If I will tell you what I will do,' said the dealer, 'You give me 600 bushels of corn for this \$70 wagon and I will make you a present of the best reaper in my stock, your choice of carriage, and you can bring your wife down and I will make her a present of the best kitchen range I have in the place, and will fit her kitchen up complete with new dishes and cooking utensils. Is it a bargain?'"

Heater for Motor Cars
A new device for heating automobiles in winter consists of a brass cylinder which runs from the radiator to the engine, and is connected to the body of the car, covering the radiator. The fan blows the air through the radiator, which is heated by the engine, and the heat is transferred to the car, where a valve regulates the amount of heat desired. In summer time he can be used as a heater for the car. This device has a tendency to cool the engine and keep the paint and chrome from scaling.

Building the Hudson Bay Railroad

Contractor Getting Supplies—Work Will Be Rushed—Sixty Miles of Grade Done

The energy and determination of Hon. Frank Cochrane in pushing the construction of the Hudson Bay Railway is bearing fruit. Grading has already been done for a distance of sixty miles, and with the whole line now under contract work will be rushed next year. The contractor, J. D. McArthur, is getting his supplies for the construction work on the ground this fall and is confident of completing the road by 1914. The Hudson Bay project which, under the former government was never more than a project, with a habit of living on the eve of election, has become a certainty since the new government took hold of the question. In two years the railway will be there, and the west will have what it asked for so long in vain from the Laurier government. The building of the line is being undertaken in businesslike way by the Minister of Railways, who has availed himself of the best engineering advice obtainable.

Britain Has Market For All Our Flour

Once Again Value of British Market to Canadian Exporters is Clearly Demonstrated

Again the value of the British market. Under the proposed reciprocity agreement Canadian wheat was to go to the United States, a country which is a great competitor of the Dominion in the export of wheat and flour, and which wanted Canadian wheat only for the benefit of the milling industry and the carrying trade of the United States. A report to the Department of Trade and Commerce from J. E. Roy, British Commissioner at Birmingham, shows that the demand for Canadian wheat flour in England is increasing. Inquiries are reaching the office for hard wheat flour, and Mr. Roy understands that a big demand for the Canadian product is likely, as the quantity and quality of British wheat is not up to the average this year. Mr. Roy further states that firms in a position to export Canadian brooms, brooms, and brushes should be able to do business in Birmingham, but that the Canadian home market is also showing the supply.

Dear Country Cousin,—Sorry I can't come out December 10th, that is the night of the Fireman's Concert, which I would not miss for the world.

Six Months' Credit Sale

Favored with instructions from Ernest E. Wilson, of Everts, Lake, S. E. Quarter Sec. 22, Township 35, Range 25, W. 4th M., close to church, I will sell the whole of his live and dead farming stock, on MONDAY, DECEMBER 9th, 1912.

Lunch at 12. Sale at 1 sharp.
Nov. 27, 2w. N. WHITE, Auctioneer.

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial? Especially if you could try it for fifty cents!

Peps is the discovery!
Peps is a little tablet, neatly wrapped in air and germ-proof silver foil. They contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are at once breathed down the air passage to the lungs. Outside the body, they soothe the inflamed and irritated membrane of the bronchial tubes, the delicate walls of the air passage, and finally enter and carry relief and healing to the capillaries and tiny air sacs in the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, thus Peps gives them direct, and at once commences their work of healing. Peps is entirely free from the old-fashioned liquid cough cures, which are merely swallowed into the stomach, and never reach the lungs. Peps treatment of coughs and colds is direct treatment.

If you have not tried Peps, cut out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps at 60c. box.

NEWS OF OUR SPECIAL

Christmas Clean Up Sale

We are having a special sale this Christmas to clean up all the fancy goods we have in stock as we were unable to buy this spring having no room in our old store, and not knowing that we would have our new store. The lines we have are of course broken in selections, but contain many very pretty and useful articles and if you need any of the articles mentioned it will certainly pay you to look over our stock as our prices positively cannot be duplicated. Then again we are giving just as big discounts on some lines on which we are overstocked but which are brand new goods.

Gifts for Men

PIPES—We have no hesitation in saying that our stock of Pipes is the largest and best that has ever been seen in Red Deer.

We have Imitation Meerschaums as low as 2.25 and genuine ones as high as 12 or over.

Case pipes ranging from 1.00 for the cheap ones to 15 for the companion sets.

We have a special pipe at 2.50 to 3.00 cased, which, at the discount is a winner.

Gifts for Ladies

WASTE BASKETS

THE RED DEER COMP'Y

After several unforeseen delays, the above company is ready for business in building No. 70, Gaetz Ave., lately occupied by the Suptons Dept., and previously by Cushings Lumber Co. as an office building.

Trading with the farmers of the country surrounding Red Deer, is a main feature of this company, in order to get everything in the way of dressed meat, poultry, butter, eggs, etc., for the market in Calgary. The goods kept in stock will be of sufficient variety for those trading with this store to choose from, and where the full amount of the produce is not taken in goods, the balance will be in cash.

The highest prices will always be paid, and persons using this store will be treated right.

There will be an auction sale of useful and fancy articles held in the above named store in a week or ten days, further notice of which will be given.

The Red Deer Trading Co'y.

THERE'S NO PLACE FOR

Xmas Gifts

Like the Big Bright Busy Store

We are now showing our complete line of Christmas Goods, and cordially invite you to come in and inspect them. You will find an immense range of Gifts of Beauty and Utility, with the hall mark of "quality" on every one.

There's nothing like a look through our immense stock to solve the perplexing problem of "what to give."

The Gaetz-Cornett Drug & Book COMPANY

Miss Michener will hold a twilight piano recital in the Oddfellows' Hall, at 4 p.m., on Saturday, Dec. 15th. Madame Roth Hope will give two numbers on the violin.

The Mock Parliament at the Young Men's Club Thursday evening next. The opposition is bringing in a resolution with reference to the conservation of our natural resources. Everybody welcome.

The Dorcas branch of St. Luke's church will hold a social evening at the home of Mrs. Guy Edgington, 4th St. North, on Thursday evening, December 5th, with good programme. Sale of home-made cooking and other articles. Admission, 10 cents. All welcome.

The junior members of St. Luke's church will hold a social evening at the home of Mrs. Guy Edgington, 4th St. North, on Thursday evening, December 5th, with good programme. Sale of home-made cooking and other articles. Admission, 10 cents. All welcome.

Mr. Isaac Milson, F.R.S.A.S., will lecture on trees, shrubs and hardy flowering plants on Wednesday, 11th inst., in the Town Hall. Every citizen who wishes to learn something of this subject should attend. The lecture is free and ladies are particularly invited to attend.

Geo. N. Welsh, the popular auctioneer, left on Monday for a trip to Old Mexico. He will remain until February next. Mr. Welsh desires us to express his thanks to those who have favored him with their patronage. No doubt George will be glad to get back to Alberta after spending a season in the tropics.

Mrs. J. P. Butler, and daughter Mrs. L. Mappin and children, left on Monday to spend the winter in Southern California. They will visit in Vancouver and Oregon, and in the early spring Mrs. Butler will visit her eldest daughter, Mrs. Verlan, formerly of Pine Lake, Alberta, and now living in the Southern States. Mr. Butler also made an extended visit to her old home in Kentucky.

A notice will be found in another column from a new business concern called the Red Deer Trading Co., established here, we understand, by Calgary parties, to do a general trade business with the farmers in order to obtain produce, particularly dressed meat, poultry, butter, eggs, etc., for consumption in Calgary. This should be good for the farmers in making another profitable outlet for their goods, and should be worthy of a trial.

The Red Deer Draughting Co., Northern Crown Bank Block, have got out a blue print map, 4 x 24 ft., covering the country from Montrose down to below Imperial and from Stewarttown to Rocky Mountain House, with Red Deer and its lines of distributing railways as the centre. The map gives post-offices and school districts, and is in every way an invaluable help to any citizen or farmer who wishes to know his district. The price is only \$1.00. Every farmer should have it. It will show exactly where you live, Mr. White did the work.

W. P. Landon met with a nasty accident Friday last, broke his right leg below the knee, but he was lucky to escape with his life. He was unloading a portable gasoline engine, weighing over three tons, from a car onto the platform, when the men were unable to hold it and it ran off the platform with a rush. Mr. Landon was holding down the tongue to catch the ground but, owing to the frost, the tongue slipped, and threw him, and the heavy engine rushed down and over both his legs, his body being under the engine, but, owing to a hollow in the ground, he escaped further injury, although the engine is only about a foot above the ground. He considers himself fortunate to escape with only one broken leg.

TENNIS CLUB DANCE.

The members of the Tennis Club had a very successful dance in the Oddfellows' Hall on Friday, Nov. 24th. The hall was nearly filled, but not crowded, so that the dancers had a fine time. The refreshments were provided and served by the ladies. Everybody present expressed satisfaction with the music provided. Mr. Ed. Wilson at the piano and Madame Roth Hope the violin. The lady patronesses were Mrs. Cunningham and Mrs. W. L. Gibson.

TO THE MUNICIPAL ELECTORS OF THE TOWN OF RED DEER.

Ladies and Gentlemen:—Having been requested by a large number of ratepayers to stand for the position of Councillor, I have consented to do so, and respectfully ask you for your vote and influence on Monday, Dec. 9th, promising, if elected, to do all in my power to further the best interests of the Town of Red Deer.

Yours sincerely,
GEO. W. SMITH.

Red Deer, Nov. 26.

TO THE MUNICIPAL ELECTORS OF THE TOWN OF RED DEER.

Ladies and Gentlemen:—Your vote and influence is respectfully solicited for
JNO. A. CARSCADDEN
As Councillor for years 1913-14.

TO THE ELECTORS

Having served for the past year as member of a Council which has done good work for Red Deer at an important stage of its development, I am asking a continuance of your confidence.

In the reports for 1912, four (4) new—small fire works; low tax rate; healthy sanitary conditions; and reasonable progress with street and other public work, stand to the credit of the Council. If returned for 1913, my endeavor shall be to continue the good work, made better by the experience of the past years, for a greater Red Deer.

JOHN MALCOLM.

TO THE MUNICIPAL ELECTORS OF THE TOWN OF RED DEER.

Ladies and Gentlemen:—Your vote and influence respectfully requested for re-election of
KENNETH M. BYERS
Election—Monday, December 9th. No personal canvass being made.

TO THE MUNICIPAL ELECTORS OF THE TOWN OF RED DEER.

The Bye-election.

Ladies and Gentlemen:—

At the request of a number of ratepayers, I have consented to allow my name to go in for nomination for the vacancy caused by the resignation of F. W. Galbraith, for the Town Council of Red Deer for 1912. If elected, I shall use my very best endeavors to promote the welfare and progress of the Town, in which my chief interests lie. I respectfully solicit your vote and influence for my election.

Faithfully yours,
G. H. MURRIN.
